

Dr. Fernando Aznar is one of the first Spanish pioneers in cosmetic gynecology & intimate surgery. He conducts his professional activities in various private hospitals in Spain.

Bachelor of Medicine and Surgery at the University of Valencia, completed his training in Obstetrics and Gynecology at the Reina Sofía Hospital in Cordoba. In 2012, he graduated in Aesthetic Gynecology by the Pinto Institute in Buenos Aires.

President of the Spanish Society of Functional Regenerative Aesthetic Gynecology (SEGERF) and member of the scientific committee of several International Societies. He has introduced, in Spain, the Vontouring technique, a non- invasive method to reshape the female genitalia, and the O-Shot technique, among other techniques.
