

Dr. Lehavit Akerman

Dr. Lehavit Akerman is a specialist dermatologist. She completed her studies at Tel Aviv University and interned at the Dermatology Dept. at Beilinson Hospital. Thereafter she worked at the Laser Unit at the Hsharon Hospital for a year.

Dr. Akerman is the president of the Israeli Society for Dermatologic Surgery and currently runs the Dermatology Dept. at the Clalit Health Services' Rothschild Clinic.

In the past 15 years, she runs a chain of private clinics for esthetics and laser anti-aging treatments, with branches in Herzliya, Neve Savyon and Rishon Lezion.

Her clinics offer a broad range of innovative dermatological and esthetics anti-aging treatments, such as: Facial rejuvenation and aging prevention, facial volume restoration and texture improvement, Botox treatments, smoothing wrinkles, various intensities of chemical peeling and Skin boosters, using innovative methods, etc.

In addition, the clinics offer advanced laser treatments for the treatment of a range of complaints: Sun damage spots, pigmentation, acne scars, surgery scars, wrinkles, stretch marks, systemic sclerosis (scleroderma), etc.

Dr. Lehavit Akerman conducts a range of research studies for Israeli leading medical laser companies in a number of fields, such as: Facial rejuvenation, Acne scars, body contouring etc.

In her clinics, Dr Akerman offers a wide range of advanced technologies offering patients unique combinations to assure maximal improvement, safe and none aggressive treatments.

Dr. Akerman is leading the concept of natural looking treatments using combinations of technologies and products for all non-surgical dermatologic indications.
