

Ayman Grada, MD, MS

Dermatologist, Case Western Reserve University School of Medicine, Cleveland, USA

Dr. Grada is a US-trained dermatologist and physician-scientist with a distinguished career spanning over 18 years in clinical practice, academic research, and biotech innovation, specializing in cutaneous wound healing and tissue repair. He is currently an Adjunct Professor of Dermatology at Case Western Reserve University School of Medicine. Dr. Grada completed his dermatology residency and a fellowship in cutaneous wound healing at Boston University School of Medicine.

With more than 200 publications on medical dermatology and epidemiology, Dr. Grada has contributed extensively to advancing the field. His industry expertise includes topical and systemic drug development for acne, actinic keratosis, and immune-mediated skin disorders. He is deeply committed to education, dermatological science, and improving patient care.

Dr. Grada serves as an Associate Editor for the *Journal of Investigative Dermatology* and as a Physician Editor for VisualDx. He is an active member of several professional societies, including the American Academy of Dermatology (AAD), European Academy of Dermatology and Venereology (EADV), Society for Investigative Dermatology (SID), International Society of Dermatology (ISD), and the Wound Healing Society (WHS). Additionally, he is a member of the Board of Directors for the Biology of Skin Foundation (BSF).
