

THOMAS BIESGEN MD, MHBA

Specialist Plastic, reconstructive and aesthetic surgery

Hand surgery, foot- and ankle surgery

Dr. Thomas Biesgen is a specialist in plastic, reconstructive and aesthetic surgery since 2007. He has been trained in major Level I trauma Centers and internationally outstanding University hospitals like Bordeaux, Paris, Munich, Tübingen, Cambridge and Los Angeles.

As a winner of international fellowship programs from the European Society of plastic, reconstructive and aesthetic surgery (EURAPS) 2012 and the German Society of foot and ankle surgery (DAF) 2010 he visited international centers of plastic and reconstructive microsurgery in Vienna, Gent, London and Los Angeles.

For several years, he has been head of the department in plastic, reconstructive and aesthetic surgery at a major teaching hospital from the University Mainz in Trier/Germany, before he decided to open several private centers in Zurich, Zug and Schaffhausen, Switzerland, in his specialty.

His major interest is in the field of aesthetic and reconstructive head and neck surgery (face lift, brow lift, rhinoplasty and blepharoplasty), including the exciting topic of ear reconstruction.

Dr. Biesgen participates regularly in special conferences as a speaker and also takes part in training courses in that particular field of aesthetic face surgery to share new techniques with his internationally renowned colleagues.

Since the beginning of his training in 2001 in plastic and reconstructive surgery, he has dedicated himself to annual
