

Professor Bob Khanna

Clinical Director of The Dr Bob Khanna training Institute and Dr BK clinic

Since 1992, Prof Khanna has built a formidable career carrying out advanced cosmetic and oral surgical procedures in combination with aesthetic medicine. This involves latest advances in oral Implantology in combination with soft and hard tissue grafting; TMD rehabilitation and treatment for head and neck pain. He has been at the fore-front for the development of concepts and techniques using BTX, dermal filler, PRP and threadlifting for over 27 years. Prof Khanna is an invited speaker and chairman to most senior aesthetic medical and dental conferences in the world. Globally he is considered by his peers, to be one of the leading experts in Facial aesthetics and clinicians travel from around the world to the DrBK Training Institute and the DrBK clinic to learn his concepts and techniques and/or receive treatment themselves from him. Over 35% of his patients are Clinicians -he is globally known as the Doctors' choice for their own treatments.

Since 1996 he has advised and acted as International KOL for Merz, Teoxane, Q-med,

Allergan, Filorga, Galderma, Croma, Pluryal, Erchonia and the Baldan group, helping to develop his full face approach.

He is a Visiting Professor in two senior Universities in Europe.
